

In 1980, we were the first member-owned and managed vacation club. We created a new concept: members should be able to go where they want, when they want. No longer were vacations for a fixed week at a fixed location.

From our original resort in Lake Tahoe, we have expanded our home locations and exchange opportunities around the world. Our members come from all 50 states and 17 different countries. Our

Board of Directors (who are all members) recognize the importance of maintaining our home resorts, not only for the benefit of our members, but to boost the value of exchanging with other resorts.

Our mission statement continues to guide every decision:

***"Our Mission Accomplished Through Teamwork, is to Create Vacations That Enrich Our Members' Lives."***
